

# Powerful Psoriasis Symptom Relief

An Ideal OTC Treatment Regimen

**proSORIÄ** daily psoriasis treatment system

# Prosoria™ Psoriasis Treatment System

Prosoria is a powerful OTC treatment system that delivers significant improvement in psoriasis symptoms. It's the power of combination treatment and our multi-action regimen that helps achieve great results. Prosoria combines clinical strength salicylic acid and natural botanical ingredients that treat, exfoliate, and moisturize skin. It works through a complete 2-step daily system that relieves psoriasis symptoms including scaling, flaking, itching, redness, and irritation. Prosoria can be used alone or in combination with drug therapy to help maximize results. Your patients will love how simple and pleasant it is to use. And most importantly, they will love the results.

## Significant Improvement in 12 weeks

# Clearer skin is as easy as two steps once a day.

Applied just once a day, Prosoria 2-step daily psoriasis treatment system relieves psoriasis symptoms and helps prevent recurrences. Plus it feels light and silky on skin.

## treat

### Prosoria™ Psoriasis Treatment Gel

The uniquely designed formula helps relieve redness, scaling, flaking, itching and irritation of psoriasis and helps maintain clearer skin with daily use.

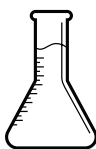

## restore

### Prosoria™ Exfoliating and Moisturizing Ointment

An intensive skin treatment that boosts exfoliation to rapidly restore the skin's appearance while intensively moisturizing.

One of the most effective and safe psoriasis treatments your patients can buy without a prescription. Here's how it's different from the rest.

### Salicylic acid 3%

Combines anti-inflammatory and exfoliating properties.

### Turmeric Root

Possesses powerful anti-inflammatory and antioxidant activity.

### Shea Butter

Rich in potent antioxidants and skin soothing lipids.

STEROID-FREE

PARABEN-FREE

FRAGRANCE-FREE

## An ideal OTC treatment regimen

The beauty of this treatment is it can be used alone or in combination with drug therapy:

- Biologicals
- Orals
- Topicals

Steroid-free safety for daily or long term therapy.
